The pastoral care system will help, teach and motivate students to develop a positive approach to learning and future life opportunities by:

- ensuring students take responsibility for their behaviour, learning and personal development
- ensuring every student is well known by key members of staff, providing personalised care, support and guidance
- monitoring progress, reporting to parents regularly and involving parents in supporting student development
- identifying academic underachievement and liaising with colleagues to provide appropriate intervention
- identifying students with unmet needs and producing suitable support plans, involving outside agencies as and when appropriate
- giving clear expectations of behaviour based on mutual respect
- providing students with the support to form good relationships with both staff and their peers and the tools to resolve conflict / differences using principles of restorative practice
- encouraging high standards of attendance and punctuality
